OBJECTIVE

To design cutting edge mobile and web applications. Ideal position would let me focus on the Front-end development and/or User Experience of web applications.

TECHNICAL SKILLS

Experience with Java, Visual C#, ASP.NET, SQL, PHP, HTML5, CSS3, JavaScript, jQuery, YUI, AJAX, Software Documentation, various CSS/JS frameworks.

EDUCATION

M.S. in Information Technology, Rensselaer Polytechnic Institute
Concentration in Human Computer Interaction, December 2012 **3.85 GPA**

B.S. in Computer Science, Siena College
Minor in Multimedia, May 2011 **3.35 GPA**

EXPERIENCE

Cisco Systems – Graduate Level II Cisco Choice Engineer Intern

6/2012 – 8/2012

- Contributed to a Proof-Of-Concept making a web application with Node.js.

The Ayco Company (Technical Group) – Level II Intern

11/2011 – 4/2012

- Visual C# web development in which I developed a web based quiz system.

Gavant – Software Application Developer

06/2011 – 08/2011

- Worked on Latham International's mobile web application.

Siena College Athletic Department – Web Administrator Intern

01/2010 – 05/2011

- Created a new coaches section for filling out forms online.

ADDITIONAL WORK AND ACTIVITIES

ReconRally

01/2010 – 05/2011

- Working with a group on an Android campus tour app using the PhoneGap platform.

iOS and Mobile Web Application Development

01/2009 – 05/2010

- Learned the basics of iOS application development and best practices for developing mobile friendly websites.

Order of Magnitudes Application

09/2010 – 05/2011

- Exported data from excel files into a new MySQL database.

Siena College Summer Scholars Program

05/2010 – 08/2010

- Developed and implemented a completely finished IAT web application using (X)HTML, JavaScript, and AJAX.
